DETAILED ACTION

Allowable Subject Matter

1. Claims 35-37, 40-44, and 57-85 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The instant application is directed to a system and method of communicating between a seating platform and a remote system. Each independent claim identifies the distinct features including "measuring a characteristic of the seating platform, wherein if the characteristic is judged to need adjustment, then initiating an exchange of communications with a communication device of the remote system, and notifying the remote system that a request has been made to adjust at least one environmental parameter". This patentable distinction is included in all independent claims 35, 57, and 65. The closest prior art, Lloyd et al. (US 6,080,106) and David et al. (US 5,544,649). Lloyd et al. disclose patient interface system with a scale which collects and transfers data from a patient to a remote monitoring system, and David et al. disclose ambulatory patient health monitoring techniques utilizing interactive visual communication which comprises various medical condition sensing and monitoring equipment are placed in the patient's home, the patient's medical condition is sensed in the home and the resulting data is transmitted to the central station for analysis and display. The references, either singularly or in combination, fail to anticipate or render the above limitations obvious.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
